

I am responding to news reports that you are considering weakening our Wisconsin's PERFECT Do Not Call law. DO NOT GIVE IN TO THESE LOBBYISTS! If I choose to leave a company, they should have NO RIGHTS to harass me for the next year and a half, or any time period, for that matter. They can send me their junk mail ~ I get enough of that. They can write me a letter saying why they missed me so much ~ but obviously not enough to keep me as a customer in the first place. But this law has given us a measure of peace since it was enacted. Do NOT change a good law because of crying of a few multi-billion dollar industries. They are not hurting. Don't allow them to hurt or annoy us.
